

The senior Management team of Environmental Waste Controls Ltd, are committed to providing total waste management services that meet or exceed the agreed requirements of our customers; we focus on compliance with applicable legislation and continually strive for minimisation of pollution and environmental Impacts by effective control of:-

Operations

Recovering recyclable and re-use materials to minimise end-of-life waste disposal. Employing robust and reliable waste compaction equipment to maximise payload and reduce vehicle journeys.

Utilising as far as is reasonably practical, fuel efficient and low emission vehicles for our operations, which will be maintained to manufacturers standards ensuring our commitment to a clean environment.

Utilising processes and procedures that minimise adverse effects on the environment and our will strive to be good neighbours.

Complying with statutory and regulatory requirements and recognised Codes of Practice.

Purchasing and Resources

Ensuring that our operations and those of our subcontractors have all the relevant environmental consents and are periodically audited for compliance, where practical, utilising the local suppliers to minimise environmental impact from delivery vehicles for goods purchased and obtaining best value.

Raising awareness

Training our workforce, to understand the environmental and quality aspects of their work.

Informing existing and potential customers of the environmental benefits of our services and liaising with local communities and schools plus other interested parties about our activities.

Implementation

Maintaining a Quality and Environmental Management System accredited to ISO 9001:2015 and ISO 14001:2015 standards audited by internal and a recognised external accreditation body. These objectives and procedures support economic and environmental sustainability and assist the reduction of our own and our customer's carbon footprints. This Quality and Environmental policy will be reviewed at least annually for suitability and effectiveness. All relevant parties are made aware of this policy and its requirements.

This policy is displayed in prominent places at all EWC Ltd premises and is available to the general public and other interested parties
